Progression in Number: Multiplication \& Division

| Nursery | Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Vocabulary |  |  |  |  |  |  |  |
|  | even <br> odd <br> double <br> equal <br> equally <br> groups <br> share | double, equal groups, array, lots of <br> share, equal groups, array | odd, even, commutative, repeated addition, inverse, groups of, multiply, multiplied by, multiple of, twice, row, column, <br> pairs, divide, divided by, divided into, left over, odd, even, repeated addition, inverse | tables, factor, <br> related fact, scale, product <br> remainder <br> dividend <br> divisor | factor pair known fact derived fact | common factor, prime number, prime factor, composite number, square number, cube number, scale, rate <br> units boundary tenths boundary divided into remainder factor, quotient, divisible by inverse | common multiple <br> remainders as fractions or decimals |
| Multiplication \& Division Facts |  |  |  |  |  |  |  |
|  | Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10 , including double facts. <br> Instantly recall number bonds to 5 including some subtraction facts. | count in multiples of twos, fives and tens | count in steps of 2 , <br> 3 , and 5 from 0 , and in tens from any number, forward or backward <br> recall and use multiplication and division facts for the 2,5 and 10 multiplication tables, including recognising odd and even numbers | count from 0 in multiples of $4,8,50$ and 100 <br> recall and use multiplication and division facts for the 3,4 and 8 multiplication tables | count in multiples of <br> $6,7,9,25$ and 1000 <br> recall multiplication and division facts for multiplication tables up to $12 \times 12$ | count forwards or backwards in steps of powers of 10 for any given number up to 1 000000 |  |

| Instantly recall some number bonds to 10 <br> Recall double numbers to 10. |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Mental Calculation |  |  |  |  |  |
|  | show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot | write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for twodigit numbers times onedigit numbers, using mental and progressing to formal written methods <br> recognise and use factor pairs and commutativity in mental calculations | use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers | multiply and divide numbers mentally drawing upon known fact <br> multiply and divide whole numbers and those involving decimals by 10, 100 and 1000 | perform mental calculations, including with mixed operations and large numbers <br> associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $3 / 8$ ) |
| Written Calculation |  |  |  |  |  |
|  | calculate <br> mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division ( $\div$ ) and equals (=) signs | write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for twodigit numbers times one-digit numbers, using mental and progressing to formal written methods | multiply two-digit and three-digit numbers by a one digit number using formal written layout | multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for twodigit numbers <br> divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context | multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication <br> divide numbers up to 4digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a twodigit whole number using the formal written |

|  |  |  |  |  | method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context <br> use written division methods in cases where the answer has up to two decimal places. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Properties of numbers: Multiples. factors, prime, squared and cubed numbers |  |  |  |  |  |
|  |  |  | recognise and use factor pairs and commutativity in mental calculations | identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers <br> know and use the vocabulary of prime numbers, prime factors and composite (non prime) number <br> establish whether a number up to 100 is prime and recall prime numbers up to 19 <br> recognise and use square numbers and cube numbers, and the notation for squared ()$^{2}$ and cubed () ${ }^{3}$ | identify common factors, common multiples and prime numbers use common factors to simplify fractions; use common multiples to express fractions in the same denomination <br> calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed and () ${ }^{2}$ cubic metres () ${ }^{3}$, and extending to other units such as mm 3 and km 3 |
| Order of Operations |  |  |  |  |  |
|  |  |  |  |  | use their knowledge of the order of operations to carry out calculations involving the four operations |
| Inverse operations, estimating and checking answers |  |  |  |  |  |
|  |  | estimate the answer to a calculation and | estimate and use inverse operations to |  | answers to calculations |
